EAGLETC'S 2023: A YEAR OF BOLD MOVES AND MILESTONES

DECEMBER 19 2023

A New Chapter Unfolds with Our Rebrand

This year, EagleTC turned a new page with a rebrand that reflects our evolving vision and our commitment to being at the forefront of tech solutions. This change isn't just visual; it's a renewed pledge to innovate relentlessly. Stroll through our website to learn more about who we are and what we have to offer. EagleTC – Eagle Technology Competence

As we wind down another remarkable year at EagleTC, it's worth pausing to appreciate the leaps we've taken in reshaping our business and the industry.

Sharing Our Journey Through Case Studies

We've captured our journey of success and learning in four compelling case studies published this year – Voice Recognition testing, Phone Compatibility testing, Over-the-Air testing, and Cybersecurity Assessments. These narratives are more than stories; they're blueprints of our problem-solving prowess and testimonials of our clients' trust. Learn more about our case studies <u>Case Studies – EagleTC</u>

Expanding Our Global Footprint

Our global footprint has grown significantly. With the launch of an internship program in Jordan, we've invested in the next generation of tech talent. Our presence at major events like CES and the Automotive Testing Expo, coupled with strategic discussions such as the one with Crown Prince Hussein in Washington DC, has reinforced our role on the world stage. Furthermore, inaugurating operations in Mexico has allowed us to reach new markets and clients.

Welcoming New Minds and Skills

Our team is ever-expanding, with new members across various domains joining us, including a dedicated team set up in Mexico. Our diverse expertise continues to be the bedrock on which EagleTC builds its innovative solutions. Take a look at 'Who We Are' About – EagleTC

Project Successes Drive Us Forward

On the projects front, we've achieved notable successes with our comprehensive EV charging ground truth testing, Bluetooth, Wi-Fi and phone projection interoperability tests for OEMs in different regions, advancements in voice recognition for the automotive sector, and pioneering work with a generative AI proof of concept. We also worked diligently to enhance the OTA and navigation system testing, and the development of an automation framework for infotainment systems. Lastly, by standardizing test cases for top-tier automotive manufacturers, we've established an innovative process for quality assurance. How can our Services help to drive you forward Services – EagleTC

As we reflect on 2023, the achievements of EagleTC stand as a testament to our drive and expertise. We continue to stride forward, driven by innovation and the relentless pursuit of excellence. Here's to the challenges and triumphs that await us in the future.
